BADGER FIELDS FARM B&B

A warm welcome is extended to you at Badger Fields B&B. We are local people who farm sheep on our small farm located in the village of Blackshaw Head, on the hill side above Hebden Bridge in the South Pennines, with stunning panoramic views from our beautiful gardens. We offer you a ideal place to stay whether you are simply passing through or wanting a longer break. Plenty of off road parking.

We are ideally situated and cater for walkers, cyclists and riders as The Pennineway path runs through our fields, the Mary Towneley Loop bridleway is only 400 yards from our property.

We can offer a ground floor double bedroom, with two twin rooms and a small single room which are loft conversions and offer a unique living space. Each room as TV, radio alarm clock, tea/coffee making facilities, bathrobes, central heating with extra fan heaters available.

We have drying facilities, cycle washing and storage. Stabling with grazing for horses, hay, hard feed and safe lock up for tack. Part of the Towneley Trailriding group, we can organize your riding, cycling or walking holiday for you around the Mary Towneley Loop. Visit

www.towneleytrailriding.co.uk for more details or give us a call.

A good home cooked evening meal is on offer along with packed lunches, or a light super. Vegetarians and other dietary needs catered for.

Extend your holiday
